DETAILED ACTION

Oath/Declaration

1. The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:

It does not correctly identify the foreign application for patent, i.e. the year of filing is stated as 2001 but it should be 2000, or inventor's certificate on which priority is claimed pursuant to 37 CFR 1.55, and any foreign application having a filing date before that of the application on which priority is claimed, by specifying the application number, country, day, month and year of its filing.

Claim Rejections - 35 USC § 112

2. Claims 11-37 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Line 6 of claim 1 is indefinite because an “accumulator” typically implies a device that is capable of performing a summation or addition but it appears the applicant is simply referring to a register or means for storing an operand. Similarly note claims 20 and 29.

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
